

Prestone® Power Steering Fluids are formulated with high quality base stock fluids that lubricates power steering systems and delivers additives where needed. Comprehensive additive packages contains antioxidants and anti-wear and anti-foam additives, while pour point depressant helps ensure smooth operation – even at sub-zero temperatures.

Meets service requirements of GM, Chrysler & Ford

- Helps stop pump squealing
- Protects against wear, foaming & corrosion
- For both high & low mileage vehicles
- Mixes with any approved power steering fluid

Item #	Size	Case Pack	UPC	SCC14
